OFFICE OF ENGINEERING AND TECHNOLOGY SEEKS COMMENT ON LIBERTY DEFENSE HOLDINGS, LTD. REQUEST FOR WAIVER OF CERTAIN PART 15 ULTRA-WIDEBAND (UWB) RULES

ET Docket No. 19-217

Comment Date: August 14, 2019 Reply Comment Date: August 29, 2019

On May 8, 2019, Liberty Defense Holdings, LTD (Liberty) filed a request for waiver of the Commission's Part 15 ultra-wideband (UWB) rules to allow the marketing and operations of its swept frequency UWB surveillance system known as the HEXWAVE.¹ Liberty states that the system uses active three-dimensional imaging to detect weapons, explosives, and other threats using a UWB surveillance technology operating in the 6.0-10.6 GHz band.²

Liberty seeks waivers of the bandwidth requirements of Section 15.503(d), which requires that a UWB transmitter at any point in time have a fractional bandwidth equal to or greater than 0.20 or a UWB bandwidth equal to or greater than 500 megahertz, regardless of the fractional bandwidth; of Section 15.31(c), which requires measurements to be made with the frequency sweep stopped; and of Section 15.521(d), which requires that that if pulse gating is employed where the transmitter is quiescent for intervals that are long compared to the nominal pulse repetition interval, measurements shall be made with the pulse train gated on.³ Liberty seeks these waivers to account for the HEXWAVE's design, which sweeps through its full operating range in a series of 200 megahertz blocks, each lasting from 350 to 910 nanoseconds, and to allow it to make compliance measurements while the system is operating in its normal transmission mode.⁴

Liberty also requests a waiver of Section 15.511(b), which limits operations of fixed surveillance UWB systems to those that are operated by law enforcement, fire or emergency rescue organizations or by manufacturers licensees, petroleum licensees or power licensees, and Section 15.511(f) which requires UWB surveillance systems to bear a statement of that limitation.⁵ Liberty seeks these waivers because it intends the HEXWAVE to be used by private security professionals.⁶

⁵ 47 C.F.R. § 15.511(b) and (f).

Lastly, Liberty proposes a series of conditions that could be associated with the waiver, including limiting use of the device to law enforcement and private security personnel, restricting equipment resale, and creating a record of all installations operating under the waiver.⁷

The FCC's Office of Engineering and Technology (OET) is reviewing the waiver request. OET has concluded that to develop a complete record on the issues presented by this request, this proceeding will be treated, for *ex parte* purposes, as "permit-but-disclose" in accordance with Section 1.1200(a) of the Commission's rules, subject to the requirements under Section 1.1206(b).
